DETAILED ACTION

Allowable Subject Matter

1. Claims 1-5, 7-10 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter.

Claims 1 and 8 recite, inter alia, "changing an output rate of information for a buffer from a first constant output rate to a second constant output rate"; "the processing data source halting the addition of data to the buffer and discarding input data"; "on condition that the buffer is substantially empty, the processing data source resuming the addition of output data to the buffer, and the buffer resuming storing the output data"; and "setting a second constant output rate as the output rate of the buffer". Prior art of record do not teach or suggest, either alone or in combination, the aforementioned limitation, nor would it be obvious to modify those references to include such limitation. Examiner notes that applicant's arguments regarding the above limitations are persuasive.
